OLIVIA DEE VAN PELT ~1 is the number of a natural leader. This means you are assertive and ambitious, and always ready to answer the call of duty. You've probably found that failure only knocks at your door when you do not rely on your own abilities. Determination and courage are your strongest inner abilities, and you achieve success by acting in a bold, forthright, opportunistic fashion – so keep it up. But, be careful, because sometimes others may see you as selfish and egotistical when you put yourself first too often. Keep a steady hand and react to others with forethought and compassion and you'll quickly defuse those aspects of your character that others see as arrogant. This will also insure your ability to continue attracting positive people, situations, and results in your career and personal life. We learn more about ourselves and the truth of the numbers we were given at the time of our birth.
