People often ask if the future can be changed! The answer is definitely "Yes!!" BUT....there is one catch! You need to know about the future in advance! You CANNOT change the outcome of ANY situation once it has BEGUN to unfold! Why? Because here is how the Universal Law on this works... Once an event has unfolded, you can only do things in an attempt to minimize the fallout, but your power of influence is very limited at this stage of a problem. [Change your destiny now by calling Liv for a psychic reading!<<<<](#)
MONDAYS ~We will be resuming our discussions of Toltec philosophy and how to apply this material to our lives and our spiritual transformation
